Art Unit: 2834

***Allowable Subject Matter***

Claims 1-12 are allowed.

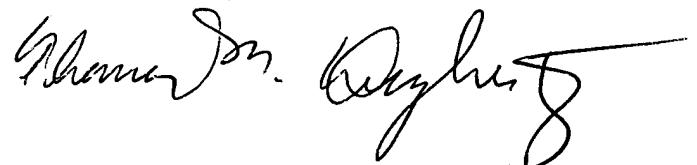

The following is an examiner's statement of reasons for allowance: the closest prior art shows ST-cut quartz including the claimed Euler angle values. Note however that this art is the Applicant's own. Not shown by the prior art, is a quartz plate meeting the Euler angles and further including a plurality of parallel-connected surface acoustic wave elements which either have different propagation directions, or different ratios of electrode width to electrode pitch.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Direct inquiry to Examiner Dougherty at (571) 272-2022.
